

Product Catalog

Tellurex Corporation has dramatically expanded its line of thermoelectric modules. Customers can now choose from a total of [64 modules](#) in a variety of sizes across a portfolio of single-stage, multi-stage and power generation configurations.

Dramatic price reductions accompany the expanded product line offering from Tellurex. Overall, the changes reflect an expansion of company operations, global sourcing, and aggressive growth goals.

Thermoelectric Cooling and Power Generation Engines

Thermoelectric Air-to-Air Coolers

Payment

Tellurex accepts payment by MasterCard, Visa and American Express when you order by phone or Fax. Wire transfers will be accepted with relevant transfer charges passed to you, and purchase orders require prior establishment of credit.

Dealers/Distributors

Tellurex does not use dealers or distributors. Thermoelectric technology design requires consideration of many factors. We provide design assistance. Call us or [Contact Us](#) to submit your application requirements.

Terms and Conditions

Tellurex Corporation Terms and Conditions apply to all orders. A copy can be downloaded here at [Terms and Conditions](#), or we can FAX a copy to you. If there is a discrepancy between your order and our terms, then our Tellurex Corporation Terms and Conditions shall control.

Product Availability/Lead Time

Tellurex maintains a working inventory of thermoelectric modules. Normal ship time is same or next day unless special handling is required. Special handling includes, but may not be limited to, height matching, module coating, special wire length, insulation type, and/or special electrical ends.

Return Policy

If you need to return part or all of an order, please complete the [Returned Goods Form](#) after you receive approval from Tellurex Corporation. All incorrectly shipped items will be adjusted for extra costs incurred. If re-stocking is required there will be a 25% charge that will cover our costs of unpacking, electrical evaluation and testing, and return to stock.

Shipping

Our preferred shipper is UPS. We can arrange for other carriers, but there may be an additional charge. We will invoice with shipping charges shown as a separate line item. We can ship your order Collect and charge the shipping cost to your account upon request.
